Final Project

Name of Application :   ## College Reminder

Group: Alejandro Casanas
              Anthony Colas
              Michael Bentz

User Manual

Purpose :

Ever feel overwhelmed by how many different applications you have to utilize in order to manage everything for college? Ever want your academic calender, friendly reminders, notetaking, and campus map all in one place? Now you can with the *College Reminder.* The main purpose of this application is to better manage your tasks and school assignments while only using one app. We want to keep it simple for students, especially since there's enough worrying to do with tests and projects. Not only can you take notes on this app, but you can now accomplish all the basic necessities a college student has without even switching between apps. We all have those days when you have a million things to do and you don't even know where to start, or what is most important. Don't be overwhelmed, and focus on what really matters.

Features :

This app includes many features like pin point in a map where your classes are. A calendar to keep track of your To Do assignments and when they are. A robust and user-friendly interface that will motivate you to do more while keeping yourself organized. You can also write simple notes to remember something about a lecture or class. The app will include a timer in case you want to time yourself for a exam, or just to check how long it takes you to do something. You can also record what a professor or what you said, to refresh your memory at a later time. At the end of the day, the app has one goal: to make one a more productive student.

Contents

Feature   Pages

Sign up and Login Page

- On this page you can create an account by entering your email, username and password and then clicking on the sign up button.
- When you have logged in you will be able to view your specific class schedule, add to tasks and more!
- When you are done you will also be able to log out.

Home Page

- When you first login you will be sent to the welcome home screen where you can view, add, delete classes. You can also see your expected GPA depending on the current grade for each class.
- By adding a class with an address, you can view the location on the Map page.
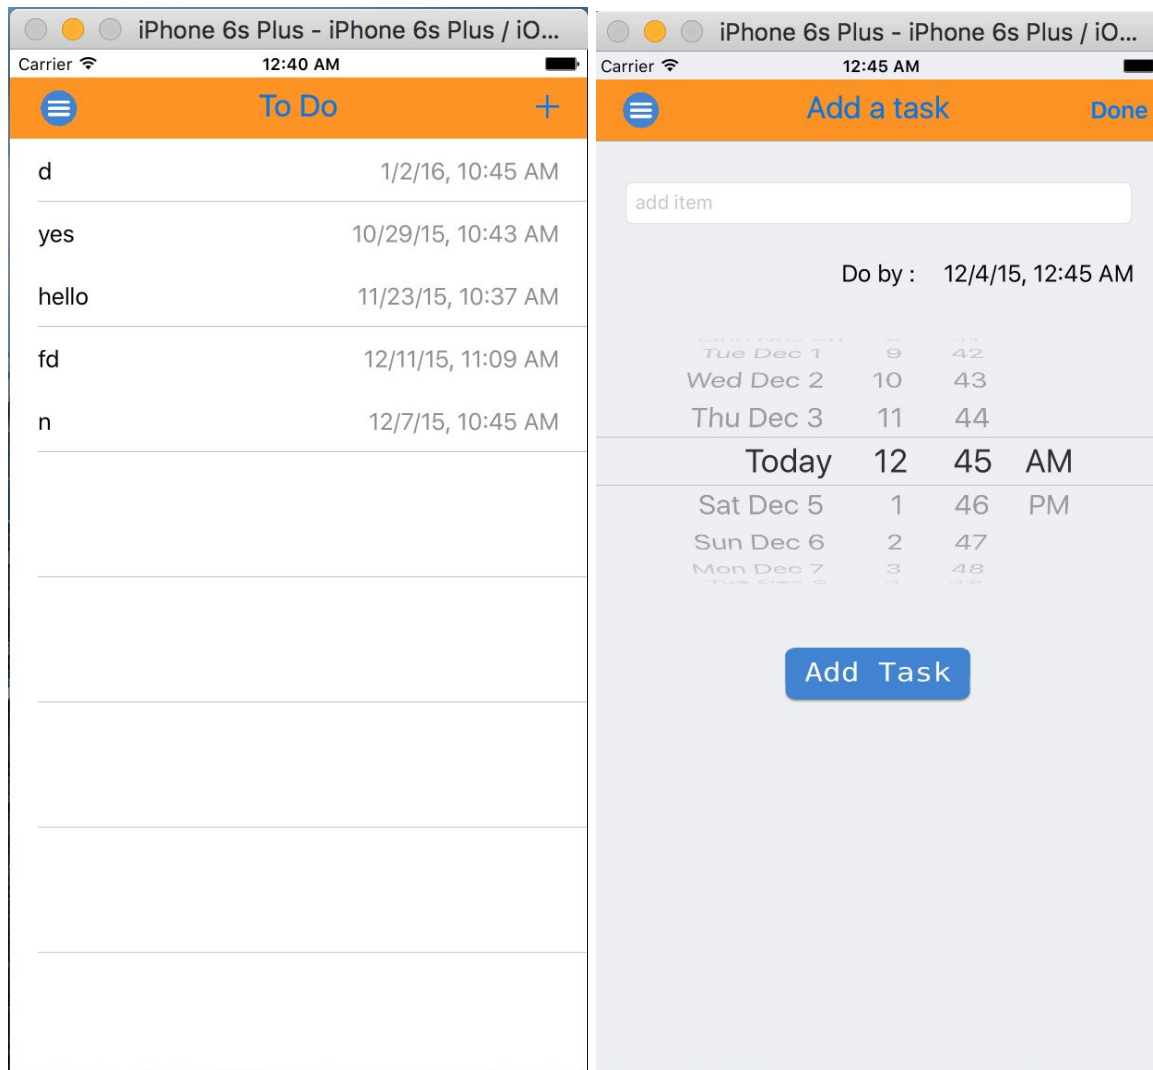

Sidebar Navigation tab

- Using the sidebar navigation you will be able to view all the different functionalities of the app.
- Select from the list and you will be taken to that view!

To Do List

- To add an item, you just simply hit the plus button (+) and fill out the add item textfield and select a due date and hour.
- Once you click add task button, the task will be saved and you can keep adding new task or finish and go back to list by clicking done.
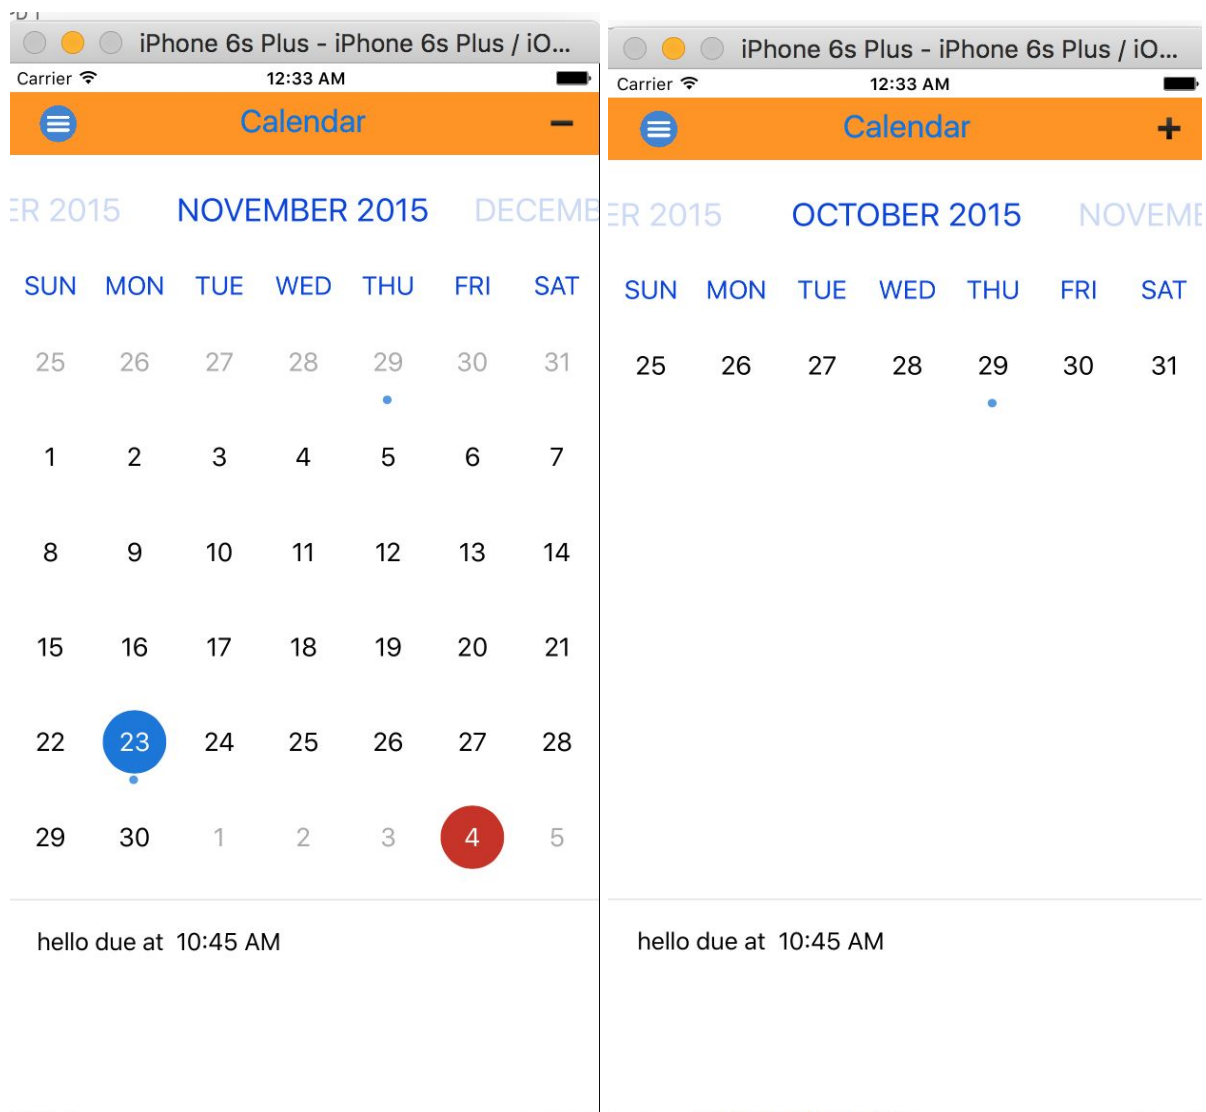

Reminders

- The reminders part of the app is integrated with the To Do List
- Tap on add task and a reminder is also made on the device
- The reminder needs a user's permission to be accessed
    - To give access:
        i. exit the app
        ii. Click Settings
        iii. Click the College Reminder App and allow it to access Reminders
        iv. Go back and select Privacy
        v. Select Reminders and make sure that College Reminder requested access to your reminders

- Once a user gives permission, restart the app
- You should now be able to add the reminders to your device's Reminders

(Note: If not granted permission a warning will appear and the task will only be added tthe College Reminder's todo list and database)
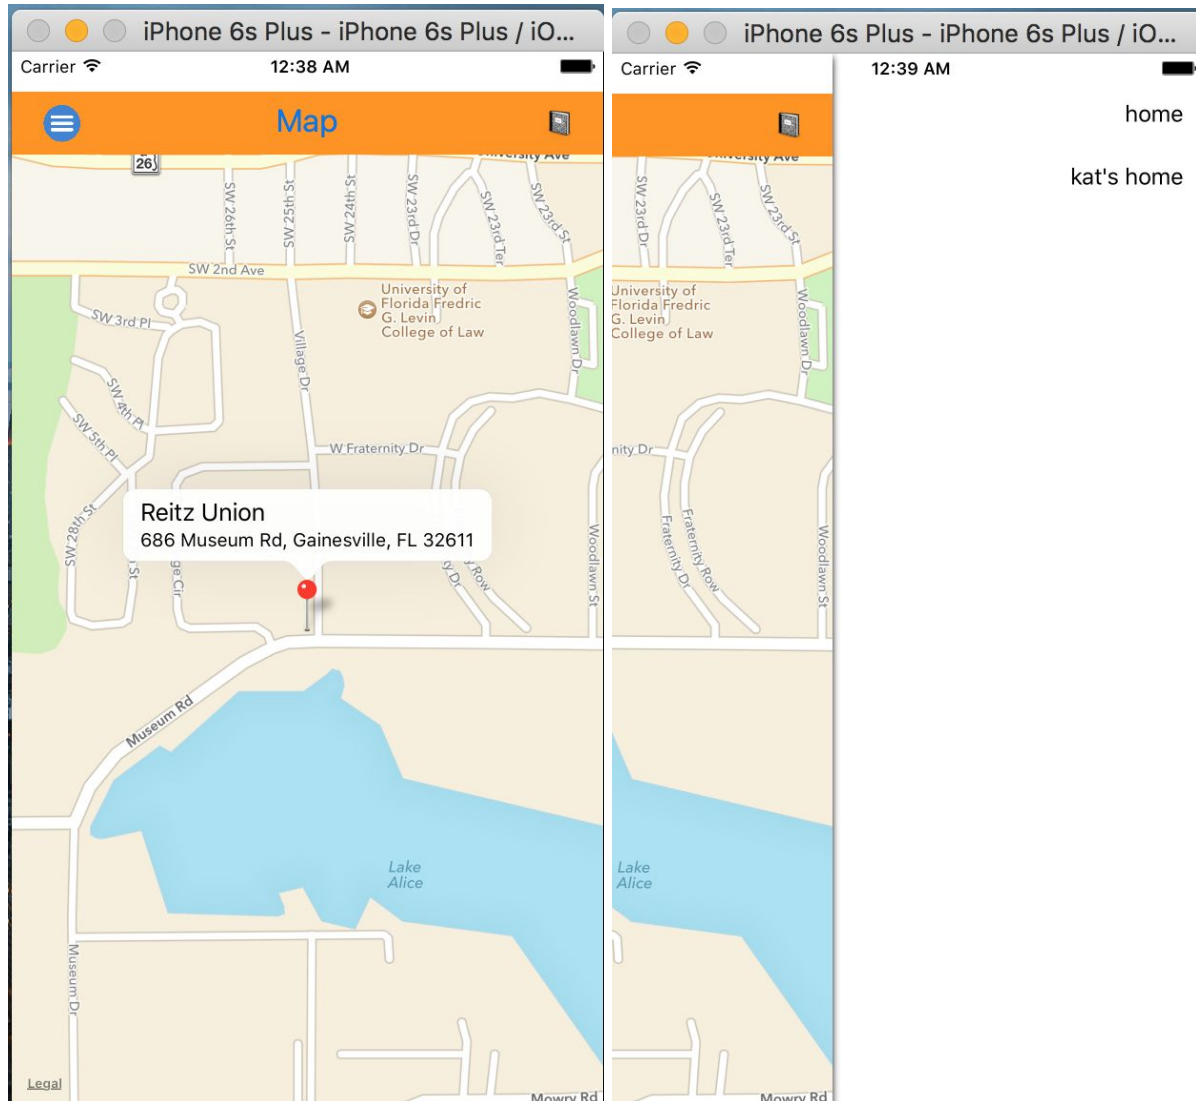

Calendar

- On this page you will be able to toggle between monthly and weekly views by pressing the button in the upper right.
    - **(-)** will switch to the weekly view
    - **(+)** will switch to the monthly view
- You will also notice dots under certain dates. These dots represent the days that have something due.
- Click on a date to check the events for that day.

Map

- When first visiting this view, you will be taken to the Reitz Union to help familiarize yourself with the UF campus.
- You can also look up your classes (that had addresses added to them previously) by opening clicking the notebook on the top right and selecting from the list.
- When selecting a class from the list, the map will zoom in on that classes' location

Timer

- The timer is very simple. When you want to start the timer, simply click the start button, and if you want to stop the timer hit the red stop button. If you want to reset the timer back to 0, then click the restart button.

Notes

- To add an item, you just simply hit the plus button (+) and fill out the title and "Enter text here…" textfield
- Once you click the "Add Note" button, the note will be saved and put in the table and you can keep adding new task or finish and go back to list by clicking done.
- To add to Facebook, just click the "Post to Facebook" button
    - A user must be logged on to Facebook first
    - A window will appear, confirming their post
